Computer Supply and Support services

You've read the manuals, called the helplines, and things are still not much better. Why not try a local expert instead? Home visits a speciality, including evenings or weekends, to suit you.

- I can build you a new computer to match your requirements, or optimise one you have just bought - then help move your existing data across to it and re-install your software.
- Or do you need your existing computer mended, upgraded, or cleaned up?
- I can help you get broadband delivered, set-up and optimised for both Internet and e-Mail usage.
- I can set up wired or wireless networking to let your computers share the internet, or a printer, for instance.
- Flat screens, printers, monitors, routers and other peripherals supplied and set up.
- I can tackle hardware and software problems including getting rid of virus infections. More generally, I can check and advise on your computer security measures.

I offer a service for home or business users, which is local, friendly, professional, and unbiased.
